

Meeting Agenda
Continuum of Care (CoC) Board
Wednesday, March 11, 2026, 2:00pm – 3:30pm
Ventura County Office of Education
Conference & Educational Services Center – Oxnard Room
5100 Adolfo Road, Camarillo

Zoom Meeting ID: 161 663 1166

<https://www.zoomgov.com/j/1616631166>

1. Call to Order
2. Board Comments
3. CoC Staff Comments
4. Public Comments: An opportunity for the public to participate in public meetings by addressing the Ventura County Continuum of Care Board in connection with one or more agenda or non-agenda items. Public comment is limited to 3 minutes per person during the opening part of the meeting and per item. The time allotment can be increased or decreased by the Chair depending on the number of speakers. This meeting is subject to the Brown Act and public comments may be submitted by using one of the following options:

Email in advance of the meeting: If you wish to make a written public comment, the comment must be submitted via email no later than 4:30pm on the day prior to the Board meeting. Send emails to: venturacoc@ventura.org Please indicate the agenda item you would like to speak on if relevant and whether you would like your message read by staff or if you will be participating in person.

During the meeting: Participants attending online may use the chat function in zoom to indicate they would like to make a comment. Participants attending in-person can complete a public comment card indicating which item they would like to comment on and submit to the Board Chair. Staff will call on participants during the public comment section of the meeting or during specific items following staff presentation of the item.

Continuum of Care Governance Board Business

5. Review and Approval of Ventura County CoC Board Minutes from February 11, 2026
6. Review and Approval of one Ventura County CoC Board Member Appointment from the City of Oxnard *(presented by: Jenn Harkey)*
7. Receive an update from the Partnership for Safe Families *(presented by: Dr. Kathleen VanAntwerp)*
8. Review and Approval of State Emergency Solutions Grant (ESG) Rapid Rehousing Reallocation *(presented by: Jenn Harkey)*
9. Approval of recommendations for State of California Homeless Housing Assistance and Prevention Program (HHAP) Round 6 grant funding as developed by the VC CoC Data, Performance & Evaluation Committee *(presented by: Alicia Morales-McKinney)*
10. Receive and file the Ventura County Homeless Management Information System and Pathways to Home Coordinated Entry System report *(presented by: County Human Services Agency Representative)*

Meeting Minutes
Continuum of Care (CoC) Board
Wednesday, February 11, 2026, 2:00pm – 3:30pm
Ventura County Office of Education
Conference & Educational Services Center – Ventura Room
5100 Adolfo Road, Camarillo

1. **Call to Order:** Dawn Dyer, Board Chair, called the meeting to order at 2:00pm
Board Members: Dawn Dyer, Juliana Gallardo, Bryan Samples, John Hajducko, Daniel Frates, Pauline Preciado, Paul Drevenstedt, Dr. Sevet Johnson, Juliana Gallardo, Jack Edelstein, Carrie Sabatini, Vainey Lopez, Tie Gutierrez, Brenda Lopez, Eric Vasquez (proxy for Edward Caliento), Melissa Hurtado (proxy for Ingrid Hardy), Angel Garcia (proxy for Manuel Minjares)
Absent: Stefany Gonzalez, Jeffrey Lambert, Ingrid Hardy, Mara Malch, Manuel Minjares
Staff: Jennifer Harkey, Alicia Morales-McKinney, Felipe Flores, Morgan Saveliff
2. **Board Comments: None.**
3. **CoC Staff Comments:** Jenn Harkey shared that approximately \$3.7 million in annual HUD CoC renewal funding for 2026–27 is currently being processed, supporting Permanent Supportive Housing, Rapid Rehousing, HMIS/CES, Safe Haven, Domestic Violence programs, and CoC planning activities. Jenn also noted that a new HUD CoC NOFO is anticipated by June 2026 and may include shifts in funding priorities, potentially reducing Permanent Housing funding and increasing emphasis on Transitional Housing and Services-Only projects. Jenn lastly shared that the 2026 PIT Count was successfully completed countywide and thanked all volunteers, city leads, nonprofit organizations, street outreach teams, and law enforcement partners for their participation and support in making the count a success.
4. **Public Comments:** None.

Continuum of Care Governance Board Business

1. **Review and Approval of Ventura County CoC Board Minutes from December 19, 2025**
Dawn Dyer moved to approve; Carrie Sabatini was second; Pauline Preciado and Jack Edelstein abstained; the balance of the Board was in favor.
2. **Review and Approval of the Ventura County CoC Board Member Appointments to fill new Board seats in alignment with the amended 2026 Governance Charter (presented by: Jenn Harkey)**
Jenn Harkey provided an overview of the CoC structure and activities, Board priorities, and performance measure metrics to familiarize the new appointees with the Board’s operations. The Board then reviewed proposed appointments to fill newly created Governance Board seats, established through amendments to the Governance Charter approved on December 19, 2025. These amendments align the Board structure with HUD priorities, expanding membership from 13 to 19 and adding representation for elected officials and law enforcement.

VC CoC staff coordinated with local jurisdictions to secure appointments. Confirmed members include City of Thousand Oaks Council Member Tie Gutierrez, County of Ventura Supervisor

Vianey Lopez, Ventura Police Commander Edward Caliento, Simi Valley Police Commander Daniel Frates, and Ventura County Sheriff's Office Captain John Hajducko, with the City of Oxnard Council Member appointment pending. Members will serve two-year terms through December 31, 2027, with future rotations based on geographic representation and homeless population data. The Board also reviewed proxy participation requirements and attendance expectations.

Dr. Sevet Johnson moved to approve the appointments to fill the new CoC Board seats; Angel Garcia was second; all in favor.

3. Review and Approval of the recommendations for State of California Homeless Housing Assistance and Prevention (HHAP) Program Interest funding for Homelessness Prevention – Eviction Prevention and Legal Services (presented by: Alicia Morales-McKinney)

Alicia Morales reviewed with the Board the proposals received in response to the RFP released in November for the use of HHAP Program interest funds to support homelessness prevention efforts through an eviction prevention legal services program. Alicia shared that two proposals were received and evaluated based on organizational capacity, service approach, cultural competency, cost effectiveness, and past performance. Staff recommended awarding \$250,000 to Ventura County Legal Aid to provide eviction prevention services, including legal counsel, mediation, and assistance for low-income residents facing housing instability.

Board members inquired as to the difference between this Eviction Prevention and Legal Services program and the Housing Rights Center (HRC) contract with the County. CoC staff explained the HRC provides annual tenant and landlord workshops on housing rights whereas the Eviction Prevention program would provide individualized legal services locally for residents at risk of homelessness throughout the County.

Pauline Preciado moved to approve the recommendation to award \$250,000 in HHAP interest funding to Ventura County Legal Aide for an 18-month grant term; Tie Gutierrez was second; all in favor.

4. Receive a Notice of an Unscheduled Board Member Vacancy and Approve the Oxnard Housing Director to Fill this Board Seat. (presented by: Jenn Harkey)

Jenn Harkey shared that Michael Skinner has accepted a position with the Ventura County Community Development Division and is no longer employed with the City of Oxnard. The City has recommended Brenda Lopez, Director of the Oxnard Housing Authority, to fill the vacant seat for the remainder of the current term (January 1, 2025 – December 31, 2027). Brenda has served the City of Oxnard since 2016 and oversees homeless services, grants management, economic development, rent stabilization, and tenant protection programs. She brings more than 17 years of experience in the public and private sectors and holds an MBA in Management and Organizational Behavior and a Bachelor's in Business Administration from California Lutheran University.

Carrie Sabatini moved to approve Brenda Lopez to fill the vacant CoC Board seat; Vainey Lopez was second; all in favor.

5. Receive an update on the FY25 HUD Continuum of Care Competition and anticipated FY26 HUD Notice of Funding Opportunity (NOFO). (presented by: Jenn Harkey)

Jenn Harkey provided an update on the FY25 HUD CoC Competition and the anticipated FY26 CoC NOFO. FY25 CoC renewal funding was authorized through the Consolidated Appropriations Act of 2026 and will be awarded based on FY24 applications, including Fair Market Rent increases for Permanent Supportive Housing (PSH) leases and rental assistance for Rapid Rehousing (RRH) programs. Ventura County's FY25 Annual Renewal Demand (ARD) totals \$3,749,587 and supports HMIS, Coordinated Entry System (CES), PSH,

RRH, and the Safe Haven Shelter, with renewal agreements expected for grants expiring in 2026. HUD is anticipated to release the FY26 NOFO by June 2026, with potential changes to align with new federal priorities, including limiting Tier 1 funding to approximately 60% of ARD and emphasizing Transitional Housing (TH), Supportive Services Only (SSO), and street outreach projects. Additional changes may include stronger supportive service participation requirements, such as formal partnerships with behavioral health and recovery services and access to detox or inpatient treatment. VC CoC staff will notify the Board once the FY26 NOFO is released and will issue a local Notice of Funding Availability (NOFA) to solicit renewal and new project applications.

Additional items not on the agenda: none

Next meeting set for March 11th, 2026

Meeting adjourned at 3:17pm

March 11, 2026

VC CoC Governance Board

SUBJECT: Review and approve one new VC CoC Board member appointment from the City of Oxnard.

BACKGROUND: The Ventura County Continuum of Care (VC CoC) Governance Board includes representatives of relevant stakeholders, private and public officials, philanthropic representatives, local business, service organizations, programs serving homeless populations, and those with lived experience in homelessness. Representation of a broad array of our community will enhance the capacity to coordinate and leverage resources from various sectors across the region.

On December 19, 2025, the VC CoC Board approved amendments to the Governance Charter to align with the U.S. Department of Housing and Urban Development's (HUD) new federal priorities for Continuums of Care. There is an emphasis on partnerships with first responders, law enforcement, and local jurisdiction leadership. HUD proposed a structure to include three elected official Board seats and a minimum of two seats for law enforcement representatives. The newly approved VC CoC Governance structure includes the addition of three (3) appointed publicly elected officials or their alternates to include one (1) County of Ventura Board Supervisor, one (1) West County jurisdiction official, and one (1) East County jurisdiction official. Each jurisdiction will rotate to ensure broad geographic coverage. West County jurisdiction includes Camarillo, Ojai, Oxnard, Port Hueneme, and Ventura. East County jurisdiction includes Fillmore, Moorpark, Santa Paula, Simi Valley, and Thousand Oaks. This increases the Board membership from thirteen (13) to nineteen (19) members.

VC CoC Staff reached out to each jurisdiction on January 2, 2026 to request the appointment of new members based on the rotation described in the amended Governance Charter. Five (5) of the appointments were made at the last meeting on February 11, 2026. The City of Oxnard had a City Council agenda item on February 17, 2026 to make an appointment. Oxnard City Council Member Gabe Teran has been appointed to represent the City of Oxnard for this two-year term. The alternate appointment is City of Oxnard Mayor Luis A. McArthur.

An updated roster of VC CoC Board membership is attached with proxy representatives. Those without proxies may designate one by notifying VC CoC Staff to add to the roster.

RECOMMENDATION: Approve the appointment of Oxnard City Council Member Gabe Teran to join the VC CoC Governance Board for a two-year term through December 31, 2027.

March 11, 2026

VC CoC Governance Board

SUBJECT: Receive an update from the Partnership for Safe Families

BACKGROUND: The Ventura County Continuum of Care (VC CoC) authorized HUD CoC Planning Grant Funds to contract with the Partnership for Safe Families to engage people with lived experience. The intent of this program is to “hold space” for those who are willing to share their lived expertise, by providing unconditional support and actively seeking input from different perspectives to make a positive impact on our homelessness system.

DISCUSSION: The Partnership for Safe Families has been actively engaging with those who have lived experience in homelessness, by meeting regularly with two workgroups: Youth Voices for youth ages 16 to 24 and Adults with Lived Experience in Homelessness. An update will be shared with the VC CoC Board.

March 11, 2026

VC CoC Governance Board

SUBJECT: Review and Approval of the State of California Department of Housing and Community Development (HCD), Emergency Solutions Grant (ESG) Rapid Rehousing Reallocation.

BACKGROUND: On March 12, 2025, the VC CoC Board approved the State Emergency Solutions Grant (ESG) funding allocations for four primary activities: Emergency Shelter, Homelessness Prevention, Rapid Rehousing, and Street Outreach. A minimum of 40% of the ESG allocation must be used for Rapid Rehousing activities. Three (3) service providers were approved for Rapid Rehousing by the VC CoC Board. The State HCD provided an award letter on July 2, 2025 and the Standard Agreement between the State and the County of Ventura (CoC Administrative Entity) was executed on August 27, 2025. Authorization to spend letters were sent out to subrecipients on August 28, 2025 with subrecipient agreements finalized within the next thirty (30) days.

DISCUSSION: Rapid Rehousing funding was awarded to City of Camarillo, Harbor House, and United Way of Ventura County. This activity type is new to the City of Camarillo and there was a period of training required to begin providing services. Each subrecipient agreement requires quarterly drawdowns and reporting, as required by the State HCD. The City of Camarillo was unable to draw funds in the first two quarters and unable to find landlords to build rapport and provide affordable rentals to meet the needs of households at 30% Area Median Income (AMI) or less. VC CoC staff met with the City of Camarillo staff to discuss a reallocation and provided a formal letter on February 9, 2026 expressing concerns about meeting expenditure and reporting deadlines. The City of Camarillo has agreed to this ESG reallocation in the amount of \$26,956.

As of February 1, 2026, Harbor House has fully expended their FY25-26 ESG Rapid Rehousing funds and have successfully housed 7 households since the grant term started in September 2025. The ESG RRH funds cover staffing costs for case management, security deposits, rental assistance, utility assistance, and moving costs for permanent housing placement. VC CoC Staff have confirmed that Harbor House has the capacity to manage these additional ESG RRH funds by the grant term deadline of September 26, 2026. These additional funds would assist up to 10 more homeless households.

RECOMMENDATIONS: Approve VC CoC staff to reallocate \$26,956 in State ESG Rapid Rehousing to Harbor House in the subrecipient agreement for grant term ending on September 26, 2026.

March 12, 2025

VC CoC Governance Board

SUBJECT: Approval of the California Housing & Community Development (HCD) Emergency Solutions Grant (ESG) Funding Recommendations for FY 2024-28.

BACKGROUND: On December 31, 2024, the California Department of Housing and Community Development (HCD) released a Notice of Funding Availability (NOFA) for State Emergency Solutions Grant (ESG) funding with applications due to the State by March 28, 2025. This program funding will be awarded to administrative entities of the Continuum of Care (CoC) through the HCD application process. A resolution has been submitted for approval to the County Board of Supervisors for the March 18, 2025 meeting, to authorize the County to administer the funds as the Administrative Entity (AE).

ESG funds may be used for four primary activities: *Street Outreach, Rapid Re-Housing, Emergency Shelter, and Homelessness Prevention*. In addition, ESG funds may be used for associated Homeless Management Information System (HMIS) costs, up to ten percent, and administrative activities for sub recipients. A minimum of 40% of the allocation must be used for Rapid Rehousing activities. This program funding is subject to the ESG federal regulations established by the U.S. Department of Housing and Urban Development (HUD).

DISCUSSION: Total anticipated funding to be awarded to the VC CoC for the (3-year) FY2024-28 State ESG, is \$609,987.00 with \$16,774.64 for grant administration and a minimum of \$237,284.94 (40%) for Rapid Re-Housing activities. VC CoC staff released a Request for Proposals (RFP) to the full CoC Alliance and Stakeholders on January 10, 2025, with applications due by February 7, 2025. VC CoC staff completed an analysis of the proposals received and the VC CoC Data Evaluation and Performance Committee met on March 5, 2025, to review the project proposals and make the funding recommendations below:

Proposed FY 2024-28 State ESG Subrecipient	Project Type	ESG Funding Request
United Way of Ventura County	Rapid Re-Housing	\$237,285.00
City of Camarillo	Rapid Re-Housing	\$85,000.00
Harbor House	Rapid Re-Housing	\$85,000.00
Gold Coast Veteran's Foundation	Street Outreach	\$85,927.00
City of Ventura	Street Outreach	\$50,000.00
Samaritan Center	Street Outreach	\$50,000.00
Grant Administration		\$16,775.00
	TOTAL	\$609,987.00

RECOMMENDATIONS:

- 1) Approve the funding recommendations by the VC CoC Data Evaluation and Performance Committee for FY 2024-28 State ESG.
- 2) Authorize VC CoC Staff to submit the proposed ESG budget to the State Housing and Community Development (HCD) Department for review and approval.

March 11, 2026

VC CoC Governance Board

SUBJECT: Approval of recommendations for State of California Homeless Housing Assistance and Prevention Program (HHAP) Round 6 grant funding as developed by the VC CoC Data, Performance & Evaluation Committee.

BACKGROUND: The Ventura County Continuum of Care (VC CoC) staff released the HHAP-6 Notice of Funding Availability (NOFA) on November 5, 2025, with applications due on December 5, 2025. County of Ventura, Administrative Entity, was awarded the combined CoC and Ventura County allocation of \$5,139,394.36 with a required 10% Youth Set aside to assist unaccompanied youth.

In response to the HHAP-6 NOFA, twenty-seven (27) proposals were received in all state approved funding categories with a total funding request in the amount of \$10,083,634.44. VC CoC staff used a standard scoring criterion when reviewing the HHAP-6 proposals which includes the following categories: 1) applicant capacity, 2) project design and approach, 3) financial capacity, feasibility, sustainability, 4) past performance, 5) coordination and collaboration, and 6) funding priority. The VC CoC Data Committee reviewed the staff analysis of the proposals received and made funding recommendations based on the ranking of the top five VC CoC priorities, which includes 1) Delivery of Permanent Housing, 2) Rapid Rehousing / Rental Subsidies for Permanent Housing, 3) Homelessness Prevention & Shelter Division, 4) Services Coordination / Supportive Services, and 5) Youth Set Aside.

HHAP Round 6 includes a requirement for all subrecipients to draw down 50% of their allocation by April 30, 2027 and meet outcome goals. Meeting these requirements will allow Ventura County to receive the remainder disbursement and meet State of California System Performance Metrics.

The attached chart below shows the proposals recommended for funding. One proposal was not considered for funding for not meeting the minimum threshold requirements. Two proposals were not recommended in this round due to receiving approval for HUD CoC renewal funding for Permanent Supportive Housing (PSH) and have been referred for HHAP round 7, depending on the need in 2027. The recommendation for Permanent Housing Capital is contingent upon receiving tax credits or their ability to demonstrate all financing needed by the end of 2026 to complete the project.

RECOMMENDATIONS:

1. Approve VC CoC Data Committee recommendations for California Homeless Housing & Assistance Program (HHAP) Round 6 grant funding; and
2. Authorize VC CoC Staff to establish subrecipient agreements for 2026-29 grant term.

Exhibit: VC CoC Data Committee HHAP-6 Recommendations and Staff Summary Scoring

VC CoC Governance Board

SUBJECT: Receive and File the Ventura County Homeless Management Information System and Pathways to Home Coordinated Entry System (VC HMIS/PTH CES) Report.

The County of Ventura, Human Services Agency operates and manages the VC HMIS/PTH CES as required by HUD through the Ventura County Continuum of Care (VC CoC) program. The VCHMIS team drafts annual goals and a strategic plan in accordance with the VC CoC's Strategic Plan, for approval by the VC HMIS/PTH CES Steering Committee. This report includes updates on progress in achieving goals and next steps on the strategic plan.

Ventura County Homeless Management Information System/ Pathways to Home - Coordinated Entry System - Narrative and Analysis February 2025

Projects/Grants

The Homeless Management Information System & Coordinated Entry System Programs continue to operate with support from one grant overseen by the Ventura County Continuum of Care.

Continuous Process Improvement

- Recent modifications to HMIS Policies have been made and approved by the HMIS Steering Committee in an effort to increase data timeliness and accuracy. These changes include: Outlining the requirements for existing agencies to add staff to the system, discontinuance of the previously required system participation fees, accelerating the best practice timeline for data entry to the system and addressing the minimum requirements for data elements to be entered into the system along with independent monthly and minimally quarterly review of the data.
- The HMIS/ CES team continues to provide additional training to support users by offering: The Road to Case Conferencing, Chronic Homeless Documentation, and Quarterly Reporting, that includes a focus on EVA reporting and Data Quality Framework, the Vulnerability Assessment Tool Training, System Performance Measures Data Elements
- Successfully transitioned our Coordinated Entry System New User Training from a virtual instructor led session to our online platform which allows for anytime access for users.
- Annual refresher training requirements have been modified to include the entire CES New User curriculum to enhance data quality. Last quarter we switched to a condensed version to focus on specific areas within the HMIS system that an end-user may be struggling with; however, did not see the desired improvement and refocused our efforts. Users also have access to the entire “Just in Time” online HMIS library, in which users will have access to all modules at any time. The continued incorporation of office hours has helped to address some of the unique challenges that our end user may experience and are available weekly.
- We continue to assess the functionality of the Vulnerability Assessment Tool and approved modifications as suggested by Committee.
- After agency Fiscal review, and discussions amongst HMIS and CoC team, effective October 1st, 2025, HMIS provider agencies no longer incur a user license fee.
- Continued review of our HMIS Strategic Plan to ensure that it is aligned with our vision and mission statement.
- Support multiple agencies to enhance efforts to align processes with CES policies.
- Continual on-boarding of new partner agencies and projects into our system.
- Continued utilization of document submission portal to enhance communication between HMIS /CES and providers.
- Continue to provide partner agencies with quarterly Data Quality Reports and training to focus on Data Quality improvement within the system.

Note: We continue to partner with HSA’s Business Technology Department and HMIS vendor to ensure system use and current technology and system interface remain beneficial to community needs.

Data Sharing Partnerships

Data sharing agreements remain in place with the following entities: Ventura County Behavioral Health; Workforce Development Board; HSA Homeless Services – Housing and Disability Assistance Program; & the VC CoC Veterans Services One Team. The HMIS team pulls relevant data to be shared monthly which allows better connection to services between those experiencing or at risk of homelessness and those connected to the programs listed above.

STATISTICS –

1. Number of HMIS Participating Agencies:

FY	23/24	24/25	Current YTD
# of Agencies	41	49	51

2. Number of HMIS Licensed Users:

FY	23/24	24/25	Current YTD
# of Users*	234	297	274
*Does not include HMIS & CoC staff.			

3. Number of HMIS License Updates

FY	23/24	24/25	Current YTD
# of Updates*	232	329	152
*This includes all add, delete, and disable user requests.			

4. Number of Trainings Provided:

FY	23/24	24/25	Current YTD
# of Trainings	65	46	22
# of online modules completed	999	2,725	2,130

Trainings offered includes:

- HMIS New User - Coordinated Entry System
- HMIS New User - Case Management
- VC CoC Programs (collaboration)
- HMIS Quarterly Reporting (EVA & Business Objects)
- Vulnerability Assessment Tool (VAT)
- Road to Case Conferencing
- Chronic Homeless Documentation
- HMIS Just-In-Time- Eligibility & Referral
- HMIS Just-In-Time Referral Disposition and Household Set Up
- HMIS Just-In-Time Project Entry with a Household
- HMIS Just-In-Time Referral Closure and CES Exits
- HMIS Just-In-Time Case Manager Assignment & Providing a Service
- HMIS Just-In-Time Interim Updates
- HMIS Just-In-Time Annual Assessments
- HMIS Just-In-Time Project Exit

5. Number of Agency Onboarding requests

FY	23/24	24/25	Current YTD
# of Requests	7	8	2

6. Number of Custom Ad Hoc Reports

FY	23/24	24/25	Current YTD
# of Request	13	13	13
Includes CoC & provider specific requests			

CES Data:

The information listed below relates to only data entered in HMIS.

1. Total Number of Referrals

FY	23/24	24/25	Current YTD
# of Referrals	3,354	4,488	3,105

2. Number of clients matched with housing opportunities

FY	23/24	24/25	Current YTD
# of matches	142	345	229

This is the # of clients matched for all housing opportunities including Permanent Supportive Housing, Permanent Housing and Transitional Housing. Although a client is matched with an opportunity it does not always turn into a placement.

3. Permanent Supportive Housing Placements:

FY	23/24	24/25	Current YTD
# of Households	50	163	134

4. Time frame from Referral to Housed (all types):

FY	23/24	24/25	Current YTD
# of Days	70	166	88

Permanent Supportive Housing type (tenant based vs. project based) impacts the overall timeframe from when a client receives a referral to the date they are housed. There have been continued housing delays due to clients being matched to several new construction PSH Housing Projects this FY.

CURRENT PRIORITIES

In addition to the administration of VC HMIS/CES, below are identified priorities and initiatives:

- Ensuring both State & Federal System Performance Metrics are reached.
- Review of the EVA SPM reporting tool for incorporation to monthly and quarterly data quality monitoring.
- Maintain excellent customer service to all HMIS providers, system utilizers and other interested parties.
- Maintain and ensure accurate and up to date Bed and Unit Inventory to support Housing Inventory Count (HIC).
- Currently participating in a CES Evaluation being conducted by Partners for Community Impact, in consideration of a third iteration of CES to ensure best practices based on HUD guidance around prioritization, gaining provider input that allows for a more seamless transition to all available housing options and ensures a high level of data quality.
- Ensure that HMIS Vendor meets the unique and enhanced needs of the community.

- All PSH and Transitional Housing Projects are fully matched by Project Completion deadlines.
- All HMIS Users are trained on Current Living Situation.
- Maintaining a By Name List for both Veteran and TAY populations.

1. PROJECT SUMMARY

A. Background: The Congressional Directive

In FY 2001, Congress directed the U.S. Department of Housing and Urban Development (HUD) to ensure that homeless programs using federal funds participate in local systems to track the use of services and housing.¹ The Ventura County Homeless Management Information System (VC HMIS) is a mandated database system required by HUD for those receiving Federal or State government funding to serve those who are experiencing homelessness or are at risk of homelessness.

VC HMIS programs include:

Homeless Assistance Programs under HEARTH

- Continuum of Care
 1. Permanent Housing - (Permanent Supportive Housing)
 2. Transitional Housing
 3. Supportive Services Only
- Emergency Solutions Grant (ESG)
 1. Emergency Shelter
 2. Homeless Prevention
 3. Rapid Re-Housing
 4. Street Outreach

Non-HUD Funded Homeless Service Programs

Programs that receive other sources of funding may not be required to participate in VC HMIS but are strongly encouraged to do so to contribute to a better understanding of homelessness in our communities. Assembly Bill 977 requires grantees of specified state homelessness programs to enter data into the local HMIS. More information on AB 977 mandated programs is posted here: <https://www.bcsb.ca.gov/calich/ab977.html>

To follow Congress' directive, HUD has told communities to assess their own needs and select the HMIS software that best meets those needs. HUD has provided substantial technical assistance to VC HMIS to support the planning process.

The VC HMIS is not connected to any federal or national data collection facility and data is not passed electronically to any other national database for homeless or low-income individuals. However, aggregate data is provided to the State of California Homeless Data Integration System (HDIS).

¹ See HUD Strategy for Homeless Data Collection Conference Report (H.R. Report 106-988), which indicated that "local jurisdictions should be collecting an array of data on homelessness in order to prevent duplicate counting of homeless persons and to analyze their patterns of use of assistance, including how they enter and exit the homeless assistance system and the effectiveness of the systems. HUD is directed to take the lead in working with communities toward this end and to analyze jurisdictional data within three years."

B. Operating Procedures

Operating Procedures will provide specific policies and steps necessary to control the operational environment and enforce compliance in the areas of:

1. Provider Participation
2. User Authorization
3. Collection of Client Data
4. Release of Client Data
5. Workstation Security
6. Training
7. Technical Support

C. Organization: Ventura County HMIS (VC HMIS)

The County of Ventura Human Services Agency (HSA) is the lead agency that administers VC HMIS on behalf of the Ventura County Continuum of Care (VC CoC) Alliance and serves participating agencies who use this system as an integrated network to collect, track, and report uniform information on client needs and services. As the lead agency, HSA has the “responsibility to establish, support, and manage VC HMIS in a manner that will meet HUD’s standards for minimum data quality, privacy, security, and other requirements for organizations participating in VC HMIS.”

VC HMIS’s goal is to go beyond the HUD mandate of producing unduplicated counts of homeless persons. Our charter is to provide a comprehensive case management system that allows the Participating Agency User to draw on the collected information to make informed program decisions.

D. Mission Statement & Vision

Mission: Our mission is to provide a comprehensive case management system to advance the provision of quality services for homeless persons, improve data collection, and promote more responsive policies to end homelessness in Ventura County.

VC HMIS is designed to be an integrated network of homeless and other service providers that use a central database to collect, track and report uniform information on client needs and services. This system will not only meet Federal requirements but also enhance service planning and delivery.

Vision: To develop, implement and administer a countywide information management system that collects client level data on homeless persons and those at risk of homelessness (per the HEARTH Act Definition). This VC HMIS system will generate reports, inform community service planning processes, increase service delivery efficiencies and, with the client’s consent, provide a mechanism to share client needs for service among partnered agencies.

E. Software

VC HMIS has chosen WellSky product for our HMIS. The modules that are supported are:

- Community Services, which includes:
 - Clients
 - Resources
 - Shelters
 - Activities
 - Scans
 - Calls
 - Eligibility

The software functionality tracks/records:

- Outcome Management:
 - Households
 - Entry/Exit
 - Assessments
 - Measurements (Self Sufficiency Matrix)
 - Services
 - Goals
 - Referrals
 - Client Demographic Data Collection (HUD)
 - Client Case Management
 - Information and Referral Capabilities
 - Bed Maintenance, Tracking and Assignment Module
 - Customized Reporting Capability
 - Real Time Data Entry
 - Activities Management
 - Case Notes Management
 - Advanced Security Features

2. PARTICIPATION REQUIREMENTS

A. Adherence to Policies

All users and agency representatives must agree to the policies in this document in order to participate in the VC HMIS. A signed agreement to do so is required of all users and Participating Agencies. This section details technical, staffing assignments and training that must be fulfilled prior to being granted access to the system.

The VC HMIS Policies and Procedures manual and all attachments may be amended as needed at any time. Participating Agencies will be notified of any VC HMIS Policies and Procedures manual changes.

B. Onboarding New Agencies

All prospective agencies that are interested in participating in VC HMIS will first be directed to the VC CoC. The VC CoC will conduct an initial consultation and determine whether the prospective agency is eligible to participate. If determined eligible, the VC CoC will review the Interest Application and then provide the prospective agency with the VC CoC Alliance Memorandum of Understanding (MOU) and membership application, determining whether they will participate as a VC HMIS Provider or in the Alliance only. If it is determined that the prospective agency will become a VC HMIS Provider, then the VC CoC will contact the VC HMIS team to begin the onboarding process.

Upon approval and direction by the VC CoC, the VC HMIS team will schedule an onboarding meeting with the new VC HMIS Provider Agency to provide an in-depth look at the HMIS system, benefits of using VC HMIS, requirements for participation with VC HMIS, and licensing information.

A. VC HMIS team will provide:

1. (3) proposed dates and times for scheduling an onboarding meeting with the new VC HMIS Provider Agency
2. Demo of VC HMIS
3. HMIS Memorandum of Understanding (MOU)
4. Coordinated Entry System (CES) Program Eligibility Criteria Form (*if programs will be receiving referrals through CES/HMIS*)
5. VC HMIS New User Form (*must be completed for each user*)

B. VC HMIS team will discuss with the new VC HMIS Provider Agency:

1. Project and workflow
2. Onboarding timeline
3. Program funding
4. Non-negotiable eligibility criteria
5. CES utilization
6. Services and Reporting
7. Number of VC HMIS users
8. Trainings offered

Please refer to the Onboarding New VC HMIS Provider Agencies procedure for more information.

C. Participation Agreements

Participating Agencies are those agencies that have been referred to the VC HMIS by the VC CoC for the purposes of data entry, data editing and data reporting.

Relationships between the VC HMIS and Participating Agencies are governed by any standing agency-specific agreements and/or contracts already in place. VC HMIS manages the **Partner Agency User Agreement (PAUA)** and the contents of the VC HMIS Policies and Procedures manual. All Participating Agencies are required to abide by the policies and procedures outlined in this manual.

Existing VC HMIS Provider Agency:

For participating agencies needing to add staff to the VC HMIS system, the prospective staff members will need to complete the following prior to being granted access to the VC HMIS:

1. Signed VC HMIS Partner Agency User Agreement (PAUA) by the staff member
2. Signed VC HMIS Policies and Procedures Acknowledgement by the staff member
3. Required trainings completed by the staff member

In addition, if additional licenses are required, the agency director or authorized agency representative will need to request additional licenses by contacting VC HMIS support.

Prior to obtaining access to the VC HMIS, every agency must adopt the following documents:

- Ventura County Homeless Management Information System Partner Agency User Agreement (PAUA) – The agreement made between the Participating Agency User and the VC HMIS which outlines agency responsibilities regarding their participation in the VC HMIS. This document is legally binding and encompasses all state and federal laws relating to privacy protections and data sharing of client specific information.
- Ventura County HMIS Client Informed Consent & Release of Information Authorization (ROI) must be implemented and monitored by agencies and would require clients to authorize in writing the entering and/or sharing of their personal information electronically with other Participating Agencies throughout the VC HMIS where applicable.
- Ventura County HMIS Client Rights and Explanation of Data Uses – Client Information document to inform clients how their personal information is gathered and entered into VC HMIS will be utilized for their benefit, should they agree to provide it.
- Ventura County Privacy Notice (PN) – Document provided to inform client of the purpose of VC HMIS and the requirement to gather personal information.
- Ventura County HMIS Revocation of Consent – In the event that a client previously gave consent to share information in the VC HMIS and chooses at a later date to revoke consent (either to enter or to share), a **VC HMIS Client Revocation of Consent to Release Information Form** must be completed and kept on file.

- Memorandum of Understanding (MOU) – The MOU confirms the responsibilities of the VC HMIS and the Partner Agency for ongoing VC HMIS activities as defined in the VC HMIS Policy and Procedures manual.

D. Technical Standards

The VC HMIS is responsible for each Participating Agency's oversight and adherence to the Technical Standards. All newly onboarded agencies will be subject to on-site security assessments to validate compliance of the agency's information security protocols and technical standards. All existing agencies will complete a self-declaration of remaining in compliance with these standards annually. On-site security assessments will also review how the agency uses VC HMIS, including:

- Processes and workflow related to data entry, for service improvement opportunities. (See Appendix IV for review item checklist).
- Compliance with the following Technology Standards:

Network

- High Speed internet access
 - DSL, Cable, T1 Line, etc.
 - No dial up connections
- Firewall
 - Internet security suite recommended
 - Anti-virus
 - Intrusion detection
 - Quarantine
 - Personal firewall at minimum
- Mobile devices
 - WiFi recommended
 - 4G or faster

Device/Hardware

- Windows XP (Windows 10 or higher recommended)
- Multicore processors
- 8 GB RAM recommended, 4 GB RAM minimum
- Video: 1024x768 minimum
- Firefox, Chrome, or Edge (most current version recommended)
- No Apple products, UNIX, Linux etc... (not supported)

E. Training

All VC HMIS Users must adhere to the HMIS user account management policy and complete training appropriate to their functions as described in Section 5 of this document prior to gaining access to the VC HMIS. Annual training is required for each licensed user. Licensing renewal is dependent on completion of the annual training. Additional training may be required if there are major system upgrades and/or

regulatory changes. This additional training will be communicated as being mandatory at the time that the training is established.

VC HMIS System Administrator will be trained to provide basic user follow-up training to support agency staff using the VC HMIS. VC HMIS System Administrator trainers will provide periodic refresher training for other users as needed.

Training Tracks include:

- VC HMIS User training (new and existing users)
- Reports training
- Coordinated Entry Training (Pathways to Home)
- Training related to system releases as necessary

F. Participation Fees

Effective October 1, 2021, participation fees will commence. Fee structure is listed below:

- Initial set up fee for license, this is a one-time fee per license: \$250
- User License fee, per user, per year: \$330

It is expected that the license fees are paid at the time of set up and will be charged annually per the VC HMIS Contract Year, which is October 1-September 30. Invoice information is listed in section G.

If an agency is requesting licenses six months into the contract year, license fees may be prorated, subject to approval by the VC HMIS System Administrator.

**Note: Participation fees were discontinued effective 10/01/2025.*

G. Invoice & Payment for Participation Fees

Invoices and Memorandum of Understanding (MOU) will be sent July 1st of each fiscal year with a return deadline of September 30th. Payment will be sent to:

____ County of Ventura
____ Human Services Agency
____ Attn: Fiscal Department
____ 855 Partridge Dr.
____ Ventura, CA 93003

**Note: Participation fees were discontinued effective 10/01/2025.*

H. Non-Payment

Payments are expected to be paid within 90-days of the invoice date. If not paid within the 90-days, the Ventura County Continuum of Care (VC CoC) is notified.

**Note: Participation fees were discontinued effective 10/01/2025.*

I. Continuous Improvement

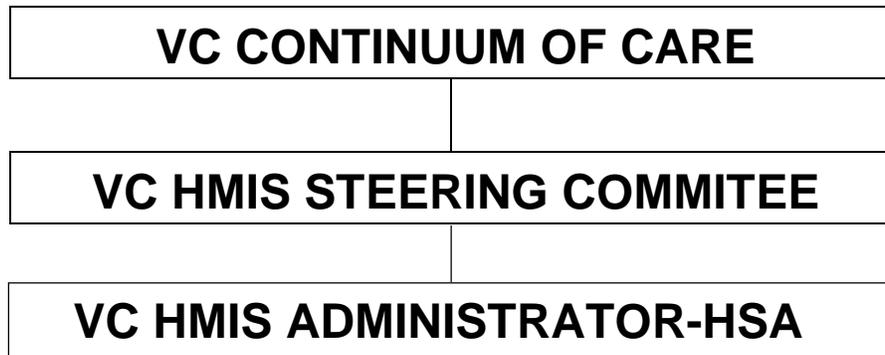

Participating Agencies shall commit to continuous improvement in HMIS participation. Agencies agree to work towards the best practice of:

1. Enter client data within **two business days** whenever feasible

3. SYSTEM ROLES AND RESPONSIBILITIES

A. Ventura County HMIS Organization Chart

Definitions of System Roles and Responsibilities are located under Section 10: Terminology.

4. CLIENT RIGHTS

Clients served by agencies participating in the VC HMIS have the following rights:

A. Communication

1. Clients have a right to privacy and confidentiality.
2. Clients have a right to not answer any questions unless entry into the Agency's program requires it.
3. Client information may not be shared without informed consent (posting of **Privacy Notice (PN)** and **Mandatory Collection Notice**).
4. Every client has a right to an understandable explanation of the VC HMIS and what "consent to participate" means. The explanation shall include:
 - a) Type of information collected
 - b) How the information will be used
 - c) Under what circumstances the information will be used
 - d) That refusal to provide consent to collect information shall not be grounds for refusing entry to the program.
 - e) A copy of the consent shall be given to the client upon request, and a signed copy kept on file at the Participating Agency, if applicable.
 - f) A copy of the **Privacy Notice (PN)** shall be made available upon client request.
 - g) A copy of the Statement of Client Rights shall be made available upon client request.

B. Participation Opt Out

Clients have a right not to have their personally identifiable information in the VC HMIS shared outside the agency, and services cannot be refused if the client chooses to opt out of participation in the VC HMIS. However, clients may be refused program entry for not meeting other agency eligibility criteria.

In the event that a client previously gave consent to share information in the VC HMIS and chooses at a later date to revoke consent (either to enter or to share), a **VC HMIS Client Revocation of Consent to Release Information Form** must be completed and kept on file.

C. Access to Records

A client has the right to request access to their personal information stored in the VC HMIS from the authorized agency personnel. The agency, as the custodian of the client data, has the responsibility to provide the client with the requested information except where exempted by state and federal law.

When requested, a client has the right to:

1. View his or her own data contained within the VC HMIS; No client shall have access to another client's records within the VC HMIS. An agency may not share any information about the client entered by other agencies beyond the agreed upon shared data elements.

D. Grievances

The client has the right to file a grievance with an agency. All Participating Agencies must have written grievance procedures that can be provided to a client on demand. If, after following the grievance procedure, the grievance is not resolved, the complaint may be escalated to the CoC Governing Body.

5. POLICIES FOR USERS & AGENCIES

A. User Access

User access will be granted only to those individuals whose job functions require legitimate access to the VC HMIS. VC HMIS is currently for VC HMIS users entering data into the system, (ie: case managers, agency administrators, and those accessing reports). Each VC HMIS user will attend the appropriate training course, sign a **Participating Agency User Agreement (PAUA)**, and satisfy all the conditions herein before being granted access to the VC HMIS.

Explanation: The Participating Agency will determine which of their employees need access to the VC HMIS.

Identified users must:

- Attend the appropriate training course for their position. For example, if the user will be case managing or entering client data, then the "New User" course would be

appropriate, whereas if the person were only assigned to running reports, then the “Report Viewer” course would be appropriate.

- Sign the **Participating Agency User Agreement (PAUA)** stating that he/she has received training, will abide by the VC HMIS Policies and Procedures, will appropriately maintain the confidentiality of client data, and will only collect, enter, and retrieve data in the VC HMIS relevant to the delivery of services to people in housing crisis that have signed a Release of Information, in the area served by the VC HMIS Collaborative. Releases of Information are active for 1 year and must be updated annually.
- The signed Participating Agency User Agreement (PAUA) must be provided to the VC HMIS System Administrator prior to receipt of the user account.

B. User Activation

The VC HMIS System Administrator will provide unique usernames and passwords to each Participating Agency user.

Explanation: Usernames will be unique for each user and will not be shared with other users. The VC HMIS System Administrator will set up a unique username and password for each user upon completion of training and receipt of the signed **Participating Agency User Agreement (PAUA)** and the receipt of the signed acknowledgement of the VC HMIS Policies and Procedures manual from each user via Participating Agency management. The sharing of usernames will be considered a breach of the **Participating Agency User Agreement (PAUA)** and will result in termination of the user account.

C. Passwords

Passwords must be no less than eight and no more than sixteen characters in length and must be alphanumeric upper and lower case with special characters. The VC HMIS System Administrator will communicate passwords directly to the user.

Forced Password Change (FPC): The FPC will occur every one hundred and eighty (180) consecutive days. Passwords will expire and users will be prompted to enter a new password. Users may not use the same password consecutively but may use the same password more than once.

Unsuccessful logon: If a user unsuccessfully attempts to logon three times, the user ID will be “locked out”, access permission revoked, and user will be unable to gain access until their password is reset by the VC HMIS System Administrator in the manner stated above.

D. User Levels

1. Case Manager: This group consists of case managers who provide the day-to-day updating of client files. Case Managers will have access to all records located in

Central Intake and in the Client folder, including Program Entry, Case Notes, Track Savings, Assessments, Group Services, and Program Exit.

2. **Reports Only:** This group includes any user at the agency who does not need to have access to client information except in report form. These reports can be canned (already built) reports, ad-hoc reports, and customized reports.
3. **Agency Administrator:** This group has all the access listed above, and additional access to the Agency Folder, in which they will maintain agency set-up information like program set-up, milestones, targets, and contracts/grants.
4. **VC HMIS System Administrator:** This group of top-level VC HMIS Administrators supports all agencies within the Ventura County Continuum of Care and will have access to every part of the VC HMIS in order to support users.

E. Confidentiality and Informed Consent

All Participating Agencies agree to abide by and uphold all privacy protection standards established by the VC HMIS as well as their respective agency's privacy procedures. The Agency will also uphold relevant Federal and California State confidentiality regulations and laws that protect client records, and the Agency will only release program level client data with written consent by the client, or the client's guardian, unless otherwise provided for in the regulations or laws.

Explanation: Participating Agencies are required to develop procedures for providing oral explanations to clients about the usage of a computerized HMIS and are required to post a **Mandatory Collection Notice** and a **Privacy Notice (PN)** in order to share Central Intake client information with other VC HMIS Participating Agencies. HUD Data Standards provide guidance for Participating Agencies regarding certain HMIS policies. However, in instances of conflict between state or federal law and the HUD Data Standards, the state and/or federal law take precedence.

Oral Explanation: All clients will be provided with an oral explanation stating their information will be entered into a computerized record-keeping system. The Participating Agency will provide an oral explanation of the VC HMIS and the terms of consent. The agency is responsible for ensuring that this procedure takes place prior to every client interview. The explanation must contain the following information, which is also included in the **Client Rights and Explanation of Data Uses**.

- What VC HMIS is: A web-based information system that homeless service agencies within the Ventura County Region use to capture information about the persons they serve.
- Why Gather and Maintain Data: Data collection supports improved planning and policies including determining whether desired outcomes were achieved and where

more or other resources may be needed, identifying best and promising practices, and identifying factors that support or hinder achievement of outcomes.

- **Security:** Only staff who work directly with clients or who have administrative responsibilities can look at, enter, or edit client records.
- **Privacy Protection:** No program level information will be released to another agency or individual without written consent; client has the right to not answer any question, unless entry into a program requires it; client information is stored encrypted on a central database and information that is transferred over the web is transferred through a secure connection; client has the right to know who has added to, deleted, or edited their VC HMIS record.
- **Benefits for Clients:** Facilitates streamlined referrals, coordinated services, unduplicated intakes and access to essential services and housing for clients.

F. Data Quality

VC HMIS Users are responsible for ensuring VC HMIS Data Quality. Data quality refers to the timeliness, accuracy and completeness of information collected and reported in VC HMIS. All Participating Agencies agree to enter, at a minimum, the VC HMIS required data elements and review data quality reports independently monthly and at a minimum on a quarterly basis.

Explanation: Participating Agencies will collect as much relevant client data as possible for the purposes of providing services to that client. The Participating Agency agrees to input the collected data within **two business days** whenever feasible following initial client contact. The Participating Agency agrees to the data collection commitment by signing the HMIS Memorandum of Understanding (MOU) and is responsible for updating client's records as needed. The VC HMIS System Administrators will run quarterly data quality reports. Any errors (including blank entries) will be reported to the Agency Administrator. When errors have been discovered, users will be required to correct any errors. Monitoring by the VC CoC will occur to ensure the successful correction of data entry errors and processes. Users may be required to attend additional training as needed.

- The Participating Agency shall only enter individuals in the VC HMIS that exist as clients under the Agency's jurisdiction. The Participating Agency **shall not** misrepresent its client base in the VC HMIS by entering known inaccurate information.
- The Participating Agency **will not** alter information in the VC HMIS that is entered by another Agency with known inaccurate information.
- The Participating Agency shall not include profanity or offensive language in the VC HMIS.
- The Participating Agency shall utilize the VC HMIS for business purposes only.
- The transmission of material in violation of any federal or California State regulations is **prohibited**. This includes, but is not limited to, copyright material, material legally judged to be threatening or obscene, and material considered protected by trade secrets.

- The Participating Agency **shall not** use the VC HMIS with intent to defraud federal, state or local governments, individuals or entities, or to conduct any illegal activity.

The VC HMIS Program Manager may request that the local CoC Governing Body sanction any user and/or Participating Agency found to be in violation of the requirements of this section. If necessary, sanctions by the local CoC include, but are not limited to:

- A formal letter of warning to the Agency
- Suspension of system privileges
- Revocation of system privileges

The Participating Agency or End User has the right to file a Grievance regarding Sanctions from the VC HMIS Program Manager/CoC Governing Body. The VC HMIS Steering Committee will review the grievance, research the nature of the infraction, and will respond to the grievant within 30 days.

G. Data Use by Ventura County HMIS

The Continuum within the Ventura County HMIS shall have access to its respective agencies' client data contained within the VC HMIS.

Explanation: For the purposes of system administration, user support, and program compliance, VC HMIS will use the data contained within the VC HMIS for analytical purposes only and will not disseminate client level data. The Ventura County Continuum of Care may release **aggregate** data contained within the VC HMIS for research and regional reporting purposes only. The **Partner Agency User Agreement (PAUA)** must be signed by all VC HMIS System Administrators.

H. Data Use by Vendor

The Vendor and its authorized subcontractor(s) shall not use or disseminate data contained within the VC HMIS.

Explanation: To enforce information security protocols and to ensure that VC HMIS data is used only with explicit permission and if permission is granted, will only be used in the context of interpreting data for research and for system troubleshooting purposes, the contract signed by the VC HMIS Lead Agency and the software vendor contains language that prohibits access to VC HMIS data.

I. Data Use by Agency

Data contained in the VC HMIS will only be used to support the delivery of services to at risk and homeless clients in the Ventura County (VC) areas. Each VC HMIS User will affirm the principles of ethical data use and client confidentiality as noted below and contained in the **Partner Agency User Agreement**.

Explanation: As the guardians entrusted with client personal data, VC HMIS Users have a moral and legal obligation to ensure that the data they collect is being gathered, accessed and used appropriately. It is also the responsibility of each user to ensure that client data is only used to the ends to which it was collected, ends that have been made explicit to clients and are consistent with the mission of the agency and the VC HMIS to assist families and individuals to resolve their housing crisis. Proper user training, adherence to the VC HMIS Policies and Procedures manual, and a clear understanding of client confidentiality are vital to achieving these goals. All VC HMIS Users will sign a **Partner Agency User Agreement** before being given access to the system. Any individual or Participating Agency misusing or attempting to misuse the VC HMIS data can be denied access to VC HMIS. Sanctions exist if users violate any laws related to client confidentiality, as outlined in Section 8: Violations.

CONFLICT OF INTEREST

“Conflict of interest” is generally defined as any activity or relationship which is or may be in conflict with an employee’s job duties or this agency’s interest.

Conflict of interest may occur when agency employees have economic, familial, or social relationships with applicants or recipients of public assistance or services. Employees are to exercise care when advising friends, relatives, or business acquaintances of eligibility and/or related processes to avoid providing information, which may lead to potential circumvention of established processes.

It is this agency’s policy that employees shall not have access to their own records or those of any friend, relative, business relation, personal acquaintance, or any other individual whose relationship could reasonably appear to influence their conduct or performance on the job. Access includes, but is not limited to, determining eligibility for assistance, accessing or transmitting computer data, and physical possession of case files and/or requesting the release of confidential information from other agency employees without having been designated as an authorized representative in accordance with applicable program procedures.

If a VC HMIS user has a conflict of interest:

1. VC HMIS user is to notify their direct supervisor.
2. Agency supervisor/director notifies VC HMIS Administration
 - a. If VC HMIS user has access to their own records, the Supervisor/Director can inform them that their record can be closed and/or revoke their data sharing in VC HMIS.

J. Maintenance of Onsite Computer Equipment

Participating Agencies commit to a reasonable program of data storage and equipment maintenance in order to sustain an efficient level of system operation. Participating Agencies must meet the technical standards for minimum computer equipment configuration; internet connectivity, antivirus and firewall.

Explanation: The Participating Agency Leadership designee will be responsible for the maintenance and disposal of on-site computer equipment and data used for participation in the VC HMIS including the following:

1. **Computer Equipment:** The Participating Agency is responsible for maintenance of onsite computer equipment. This includes the following:
 - Purchase of and upgrades to all existing and new computer equipment for utilization in the VC HMIS.
 - Workstation(s) accessing the VC HMIS must have a locking, password-protected screen saver.
 - All workstations and computer hardware (including agency network equipment) must be stored in a secure location (locked office area).
2. **Data Storage:** The Participating Agency agrees to only download and store data in a secure environment and to adhere to the U.S. Department of Housing and Urban Development's (HUD) Double Lock Rule (DLR) for HMIS data security, ensuring that all physical documents containing Protected Personal Information (PPI) and Personally Identifiable Information (PII) are securely stored in a locked container (e.g., filing cabinet) situated within a locked room or office. All digital files containing Protected Personal Information (PPI) and Personally Identifiable Information (PII) will be stored on a password protected device and that device will be kept physically secured (e.g., in a trunk or locked office). Refer to Section 2.C: Technical Standards for more information.
3. **Teleworking:** The same rules apply for those that are teleworking. All PPI and PII should be stored as stated above. In addition, when documents are out in the open and when discussions are being had on the phone or in person regarding a client, be aware of your surroundings to maintain confidentiality.
4. **Email:** When sending email that contains any Protected Personal Information (PPI) or Personally Identifiable Information (PII), it should be sent securely, in an encrypted message.
5. **Data Disposal:** The Participating Agency agrees to dispose of all documents containing Protected Personal Information (PPI) and Personally Identifiable Information (PII) by shredding paper records and permanently deleting any client information from any data storage medium prior to the transfer, repurposing, or disposal of equipment. This includes but is not limited to tablets, smartphones, internal hard drives and solid-state drives (SSDs) of desktop computers, laptops, and servers, as well as external storage devices such as USB flash drives, external hard drives, SD cards, e.g., CDs and DVDs), and any other portable or removable media.

K. Downloading of Data

VC HMIS Users will maintain the security of any client data extracted from the VC HMIS and stored locally, including all data contained in custom reports. VC HMIS Users may not electronically transmit unencrypted client data across a public network.

Explanation: To ensure that the VC HMIS is a confidential and secure environment, data extracted from the VC HMIS and stored locally will be stored in a secure location and will not be transmitted outside of the private local area network unless it is properly protected. Security questions can be addressed to the VC HMIS System Administrator. Any Personally Identifiable Information (PII) will not be distributed through email, unless sent through an encrypted and secured messaging system.

L. Data Sharing

Data within the system will be shared based upon the level of consent designated by the client within the VC HMIS. A client may choose to limit the period of time for which their data will be shared. The following data elements will be shared amongst participating providers (with the exception of Runaway Homeless Youth; no RHY data will be shared):

- Assessments (dynamic data elements)
- Action Steps
- Case Manager
- Case Plans
- Client data
- Entry/Exit data
- File Attachments
- Goals
- Incidents
- Measurement Tools
- Needs/Services

Explanation: Data sharing refers to the sharing of information between Participating Agencies for the coordination of case management and client service delivery. Specific data elements to be shared are limited to those as outlined in HMIS Data and Technical Standards Final Notice – (69 FR 146), as revised in HMIS Data Standards Revised Notice-March 2010, Section 1.6. This includes Universal Data Elements, Household Demographics, Employment and Education Information.

Program level information in either electronic or paper form will never be shared outside of the originating agency without written client consent. Information that is shared with written consent will only be used for the purpose of service delivery. End users found to be sharing program level client data without written consent will have their access terminated.

Protocol for data corrections or modifications: When VC HMIS data needs to be modified, the Viewing Agency shall contact the Creating Agency directly to report the

discrepancy and request the required correction/modification. The Viewing Agency will do the necessary follow-up with the Creating Agency to confirm that the requested corrections are made.

Creating agency: The creating agency refers to the agency creating the client record, entry/exit, needs/services, case plans, etc. The creating agency is responsible for their data.

Viewing agency: The viewing agency refers to the agency reviewing client data. While the viewing agency has access rights in VC HMIS to edit data, best practice is not to modify other providers' data.

Data entry and modifications are tracked and may be periodically reviewed or monitored in order to safeguard data quality and data integrity. In the event a project or provider is unable to make necessary changes within the system, the VC HMIS System Administrator is authorized to make them. This will only be done when a project has been closed and there are no licensed users available to make the necessary changes.

M. Data Release

Aggregate level (client de-identified) data may be released by Agencies, the Ventura County Continuum of Care and/or by the Ventura County HMIS under certain criteria. Client-level data may only be released by written consent from the client for a specified purpose.

Explanation: Data release refers to the dissemination of aggregate and/or client-level information for statistical, analytical, reporting, advocacy, regional needs assessment, trend analysis, etc.

- 1. Agency Release:** Each Participating Agency owns all data it enters into the VC HMIS. The agency may not release any client level information without the express written consent of the client. Agencies may release program and/or aggregate level data for all clients to whom the agency provided services with the express written permission of the CoC or assigned authorized entity. No individual client data will be provided to any group or individual that is neither the Participating Agency that entered the data nor the client without proper authorization or consent by the client. This consent includes the express written authorization for each individual or group requiring access to the client's data.
- 2. Ventura County Continuum of Care Release:** The Ventura County Continuum of Care (VC CoC) may release **aggregate** information about the Continuum at the program, sub-regional and regional level. Continuum level aggregate data may be released without agency permission at the discretion of the agency's continuum. The VC HMIS will not release agency- or client- specific data to outside groups or individuals.

- 3. Ventura County HMIS Release:** Ventura County HMIS, with the consent of the CoC, will develop an annual release of aggregate data in a summary report format, which will be the standard response for all requests for collaborative data. The Ventura County HMIS will not release agency- or client- specific data to outside groups or individuals.

N. Agency Customization

A Participating Agency will have the ability to request system customization at the Agency level to reflect the data collection needs for their specific program(s). The VC HMIS contains certain fields that can be tailored at no cost to the agency.

Explanation: Participating Agencies have some ability to customize VC HMIS fields to meet the specific needs of their program at the discretion of the Ventura County Continuum of Care (VC CoC). At the request of the Agency Administrator, the VC HMIS System Administrator will evaluate the request and implement the changes as warranted.

6. TECHNICAL SUPPORT AND SYSTEM AVAILABILITY

A. Technical Support

The Ventura County HMIS will provide technical support to all Agency Administrators and VC HMIS Users as needed.

Technical Support Hours: 8:00 a.m. – 5:00 p.m. (PST), Monday through Friday (Excluding Holidays). Staff will respond in a timely manner to any requests for support made during the above hours.

For technical support, please contact:

Ventura County HMIS telephone number: (805) 477-5156

Ventura County HMIS email: HMIS-Support@venturacounty.gov

Assistance will be provided in the following areas:

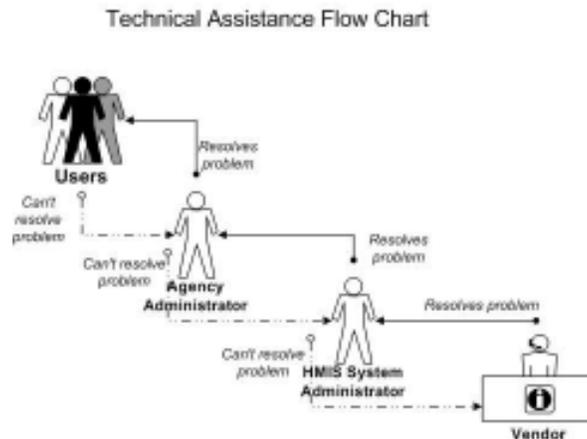

- **Help Desk Support:** Help Desk support is provided to help VC HMIS users access and utilize the VC HMIS application.
- **Training:** User training is offered monthly, and Report training is offered quarterly. New users will receive an email with instructions for participating in training. Existing users may self-register through HSA Café/Cornerstone to participate in training.
- **System Customization:** VC HMIS can provide limited customization of assessments upon request by the agency.
- **Reporting:** Training and technical assistance in accessing standardized reports and the creation of ad hoc (custom) reports.
- **Data Analysis:** Interpreting reports.

Additional costs may apply in the following areas:

- **System Customization:** Agency-specific customization requests.
- **Reporting:** Agency-specific customized reports.

- **Data Conversion:** Assist in the development of a data conversion/migration plan and provide support in data conversion/migration implementation.
- **Data Analysis:** Extensive analysis of agency's data.

Requests should be delineated as follows:

B. System Availability and Scheduled Maintenance

The Ventura County HMIS will be available to users at a minimum of 97.5% of the year.

Explanation: Necessary downtime for VC HMIS upgrades and patches will be communicated by VC HMIS System Administrators system-wide and performed in the late hours when possible.

C. Unplanned Interruption to Service

In the event of unplanned interruption to service, VC HMIS System Administrators will notify all Participating Agencies as soon as possible.

Explanation: When an event occurs that makes VC HMIS inaccessible, the VC HMIS System Administrator will analyze and determine the problem. In the event it is determined that VC HMIS accessibility is disabled system wide, then the VC HMIS System Administrators will work with the software vendor to repair the problem. Within two hours of problem awareness, Participating Agencies will be informed of the estimated system availability. VC HMIS System Administrators will notify Participating Agencies via e-mail when service has resumed.

D. Conversion of Existing Data

Data migration from legacy systems is allowed upon approval from the local VC HMIS System Administrators. Migrated data must be non-duplicated and an exact match to the existing HMIS field type. The Participating Agency is responsible for the accuracy, completeness and quality of the migrated data.

Explanation: Data migration (or conversion) is the one-time process of transferring data from any existing system to the Ventura County HMIS. Upon transfer, the agency abandons its existing system and uses Ventura County HMIS for recording all client-related data.

The Agency's existing system must be an ODBC-compliant database platform in order for migration to be possible. The VC HMIS System Administrator can help the Agency determine the ODBC compatibility for any legacy systems. Only data that is an exact match with VC HMIS data fields may be migrated. Data must be unduplicated prior to data migration. All required fields in the VC HMIS are required for migration. A data dictionary will be provided upon request. This activity is provided by the System Vendor and will incur an additional cost. Cost will be determined prior to the service being rendered and will be agreed upon by requesting Agency, CoC Lead and Program Manager.

If the agency's data cannot be migrated, manual conversion (data entry by the agency's personnel) may be necessary to move data from legacy systems into the Ventura County HMIS.

E. Technology Innovation

HMIS Administration shall pursue technology enhancements including:

1. Review of **device compatibility standards** to ensure equitable access. These innovations will improve usability, security, and accessibility.

7. SYSTEM ARCHITECTURE & SECURITY

A. Password Management Procedure

An VC HMIS End User must notify the Agency Administrator or VC HMIS System Administrator immediately upon realization that his or her password has been lost, forgotten or made public to others. The Agency Administrator is responsible for notification of password breach to the VC HMIS System Administrator. Upon notification, the VC HMIS System Administrator will immediately reset the user's password. A new VC HMIS End User will not receive an initial password without training.

Explanation: The VC HMIS System Administrator will reset the user password. The new password will be valid from the time of the reset until the next logon.

- Passwords need to be 8 characters minimum and contain a number, upper and lowercase letters, and 1 or more special characters.
- Passwords expire after 60 days (after expiration interval the user is required to provide a new password upon logon).
- Passwords cannot be reused consecutively.
- If system is dormant for 20 minutes, user will be forced to log back in.

B. Virus Protection

Agency Responsibilities: All Participating Agency computers and networks must have up-to-date anti-virus software.

Explanation: All Participating Agency computers should be protected by anti-virus software. The anti-virus software should be updated regularly to maintain maximum protection from the most recently released viruses.

C. Backup and Recovery Procedures

Ventura County HMIS is routinely backed up and saved to redundant systems by the vendor pursuant to the contract term and agreement to prevent loss of data.

D. Auditing and Monitoring

VC HMIS System Administrators have access to activity logs of changes made to the information contained within the database by end users. VC HMIS System Administrators can upon request or notice of suspicious/questionable behavior monitor access to the system by an end user that could potentially reveal a violation of information security protocols. Any request for auditing and monitoring will be evaluated for justification, investigated, and kept confidential.

E. Security Best Practices

Beyond HUD minimum requirements, HMIS Administration shall:

1. Conduct an **annual external security audit**.
2. Provide **role-specific training tracks** tied to HUD Data Standards updates. These practices strengthen community trust and ensure system resilience.

8. VIOLATIONS

A. Right to Deny Access

The VC HMIS System Administrator has the right to deny user access to the VC HMIS if an end user has violated any of the policies in this document. Any user or Participating Agency suspected of violating a policy may be subject to suspension of VC HMIS privileges until the violation can be resolved.

Explanation: If deemed necessary for the immediate security and safety of Ventura County HMIS data, the VC HMIS System Administrator has the right to deny or revoke user access to VC HMIS. The VC HMIS System Administrator will report access revocations to the VC HMIS Program Manager. The VC HMIS Program Manager will report all revocations to the CoC, VC HMIS Steering Committee and the Participating Agency.

B. Reporting a Violation

VC HMIS Users should report any suspected or alleged privacy or security violations to the VC HMIS System Administrator immediately.

Explanation: All VC HMIS Users are obligated to report suspected instances of noncompliance. For the Agencies that have an Agency Administrator, users should report security violations to the Agency Administrator first and then the Agency Administrator has the responsibility of providing that information to the VC HMIS System Administrator. If the Agency does not have an Agency Administrator, then the VC HMIS User is to report violations to the VC HMIS System Administrator directly.

C. Possible Sanctions

The VC HMIS Program Manager may request that the local CoC Governing Body sanction any user and/or Participating Agency found to be in violation of the privacy and/or security protocols.

Sanctions by the local CoC include, but are not limited to:

- A formal letter of reprimand
- Suspension of system privileges
- Revocation of system privileges
- Recommendation for corrective action for employee
- Referral for potential criminal prosecution

D. Restorative Practices

Prior to CoC sanctions, HMIS Administration shall offer **coaching** to agencies and users.

9. GRIEVANCES

A. Client Grievance Process

Clients will contact the Participating Agency with which they have a grievance for resolution of VC HMIS problems. Participating Agencies will report all client grievances to the local CoC Governing Body.

Explanation: Each Participating Agency is responsible for answering questions and responding to grievances from their own clients regarding the VC HMIS. After client has brought a VC HMIS-related complaint to the Participating Agency, the Participating Agency must have a process to respond to the complaint. The Participating Agency will provide a copy of the portion of the VC HMIS Policies and Procedures and the Client Revocation of Consent to Release Information to the client.

The Participating Agency must keep all grievances and responses on file at the agency site. The Participating Agency will send written notice of the grievance and response to the grievance to the local CoC Governing Body. The VC HMIS System Administrator will record all grievances and report them to the VC HMIS Steering Committee. Appropriate action will be taken as required by the local CoC Governing Body.

The CoC has overall responsibility for their local VC HMIS effectiveness and will respond if users and/or Participating Agencies fail to follow the terms set forth in the

VC HMIS Policies and Procedures manual, Agency Agreements, and User Agreement or if a breach of client confidentiality or the intentional misuse of client data occurs.

B. Agency Grievance Process

Participating Agencies will report all agency-generated VC HMIS-related grievances to the local CoC Governing Body. If the grievance is related to a problem with the VC HMIS, it must be reported to the VC HMIS System Administrator. Corrective action will be taken if system-wide changes are warranted.

Explanation: In order for the VC HMIS to serve as an adequate tool for agencies and provide a more accurate picture of our region's homelessness, any grievances related to problems with the VC HMIS must be addressed by the agency in conjunction with the CoC Governing Body with the goal of affecting systemic change where necessary. The local CoC will report grievance problems to the VC HMIS Administrator. If system-wide changes are warranted for a corrective action, it will be forwarded to the VC HMIS Steering Committee for approval.

The Participating Agency or End User has the right to file a Grievance regarding Sanctions from the VC HMIS Program Manager/CoC Governing Body. The VC HMIS Steering Committee will review the grievance, research the nature of the infraction, and will respond to the grievant within 30 days.

10. TERMINOLOGY

Agency Administrator: The person responsible for some system administration at the agency level. Responsibilities include informing VC HMIS System Administration of the need to add and delete users, basic troubleshooting, and escalation of issues to their VC HMIS System Administrator. This person is the agency user's first line of contact for VC HMIS issues.

Aggregate Data: Data with identifying elements removed and concentrated at a central server. Aggregate data are used for analytical purposes and reporting.

Anti-Virus Software: Programs to detect and remove computer viruses. The anti-virus software should always include a regular update service allowing it to keep up with the latest viruses as they are released.

Auditing: The process of systematically recording and reviewing system activities to ensure compliance, security, and accountability. It typically involves maintaining logs of user actions, access events, and system changes.

Cable: A type of modem that allows people to access the Internet via their cable television service.

Continuum of Care (CoC): Refers to the range of services (outreach, emergency transitional and permanent housing and supportive services) available to assist people out of homelessness.

CoC Governing Body: The entity responsible for policy decisions for a Continuum of Care system.

Database: An electronic system for organizing data so it can easily be searched and retrieved. The data within the VC HMIS is accessible through the web-based interface.

Digital Subscriber Line (DSL): A digital telecommunications protocol designed to allow high-speed data communication over the existing copper telephone lines.

Encryption: Conversion of plain text into encrypted data by scrambling it using a code that masks the meaning of the data to any unauthorized viewer. Encrypted data are not readable unless they are converted back into plain text via decryption.

Firewall: A method of controlling access to a private network, to provide security of data. Firewalls can use software, hardware, or a combination of both to control access.

HMIS: Homeless Management Information System. This is a generic term for any System used to manage data about the use of homeless services.

VC HMIS Steering Committee: Meets Quarterly, on the third Wednesday, via MS Teams. The goal of the meeting is to provide the committee with updates related to VC HMIS utilization, HMIS HUD updates, and approve matters affecting the VC HMIS community.

VC HMIS System Administrator: The person(s) with the highest level of user access. This user has full access to all user and administrative functions in the CoC and will serve as the liaison between Participating Agencies and the vendor. There is at least one VC HMIS System Administrator in each CoC.

VC HMIS User: A person who has a unique user identification (ID) and directly accesses VC HMIS to assist in data collection, reporting or administration as part of their job function in homeless service delivery. Users are classified as either system users who perform administration functions at the system or aggregate level or agency users who perform functions at the agency level.

Host: A computer system or organization that plays a central role providing data storage and/or application services for HMIS.

Internet: A set of interconnected networks that form the basis for the World Wide Web.

Internet Protocol Address (IP Address): A unique address assigned to a user's connection based on the TCP/IP network. The Internet address is usually expressed in dot notation, e.g.: 128.121.4.5.

Internet Service Provider (ISP): A company that provides individuals or organizations with access to the internet.

Local Area Network (LAN): A network that is geographically limited, allowing easy interconnection of computers within offices or buildings.

Monitoring: Observation of system performance and user behavior to detect issues, anomalies, or unauthorized activities in real time or through regular reviews.

Network: Several computers connected to each other.

Network Address Translation (NAT) is the translation of an Internet Protocol address (IP address) used within one network to a different IP address known within another network. One network is designated the inside network, and the other is the outside. Typically, a company maps its local inside network addresses to one or more global outside IP addresses and unmaps the global IP addresses on incoming packets back into local IP addresses. This helps ensure security since each outgoing or incoming request must go through a translation process that also offers the opportunity to qualify or authenticate the request or match it to a previous request. NAT also conserves on the number of global IP addresses that a company needs, and it lets the company use a single IP address in its communication with the world.

On-site: The location that uses the HMIS and provides services to at-risk and homeless clients.

Participating Agency: An agency, organization, or group that has a current, signed HMIS MOU on file.

HMIS Agency Agreement with their respective CoC Governing Body.

Program Level Data: Client information collected during the course of the client's program enrollment, including the following system screens: Program Entry, Services Provided, Client Profile, Case Notes, Track Savings, Bed Assignments, Bed Maintenance, Daily Services, Sessions, and Program Exit.

Real-Time: Data that is processed and available to other users as it is entered into the system.

Server: A computer that provides a service for other computers connected to it via a network. Servers can host and send files, data or programs to client computers.

T1 Line: Communication line that can carry voice or data at transmission speeds that are 25 times the speed of a modem.

Transmission Control Protocol/Internet Protocol (TCP/IP): The protocol that enables two or more computers to establish a connection via the internet.

User ID: The unique identifier assigned to an authorized HMIS User.

11. ACKNOWLEDGEMENT

I acknowledge that I have received a written copy of the Ventura County HMIS Policies and Procedures. I understand the terms of the Ventura County HMIS Policies and Procedures and I agree to abide by them. I understand that any violation of the policies or procedures could lead to CoC sanctions or even criminal prosecution.
